Miss Monk Literacy Homework, Due in 7th May '10

Adjective, Noun, Verb, Adverb

Adjectives are describing words. They make nouns more interesting.
Nouns are words that are used to name things (people, places, things).
Verbs are doing words.
Adverbs tell us more about verbs. They tell us how, when or where the action of the verb happens.

Fill in the following table using adjectives, nouns, verbs and adverbs. When you have filled in a row, read what you have written. Does it make sense? Does it sound strange or silly?
If you can, try to make each word in the sentence begin with the same letter, like this...
Silly Snake Slithers Slowly
Cautious Cat Creeps Carefully

Adjective	Noun	Verb	Adverb

Homework Helper: Do this with your child as a game. See who can make the most sentences with each word beginning with the same letter. OR who can make the silliest sentence. OR who can make a sentence that makes the most sense.
